Virtual Meeting-KØBRO Antennas
KCDXC DXCC Honor Roll -ABØX
Current Events Cartoon
DX News & Views- Ohio/Penn DX Bulletin
VQ9AIW & VQ9ERR DX History-DX Magazine

NEXT KCDXC MEETING: SEPT. 27 -The Sept. KCDXC meeting will be a virtual meeting on the 27th, at 6:30 PM on Zoom. Like last time KØVXU will send out an invitational link to members. The famous Pie Eating Contest will be at the Zoom meeting hosted by KØXM.

BEAUTY IS IN THE EYE OF THE BEHOLDER DE KØBRO:

Thanks, Ron! Beautiful scenery! Multi element yagis for 2M and 6 on top of the Tennadyne T-8, Log!
Looks like some wire antennas are hung off the side of KØBRO's tower, too.

REMINDER: CLUB ELECTIONS ARE COMING SOON!

Members should be thinking about people to nominate for our club leaders!

DX NEWS & VIEWS

BY AB0X

Recent improvement in Covid have allowed some DX activity that is long overdue. Here's what is coming up:

3DA0RU KINGDOM OF ESWATINI DXPEDITION (Update). Two operators have dropped out of the 3DA0RU team. They are Vladimir/RK8A and Albert/UB9WLJ. No reason was given, but this now leaves two spots open for operators. Contact Vasily/RA1ZZ or Vasily/R7AL if interested in joining the 3DA0RU team.

Current list of operators are Nick/R5EC, Vasily/R7AL, Vasily/RA1ZZ, Leo/RW9JZ, Slav/OK8AU and Wlodek/SP6EQZ. They plan to be active as 3DA0RU from Eswatini between October 22nd and November 8th. Activity will be on 160-6 meters using CW, SSB and FT8 (F/H). QSL via R7AL or ClubLog's QQRS (preferable). For more details and updates, see:

<https://dexpedition.wixsite.com/3da0ru>

3Y0J BOUVET ISLAND DXPEDITION NEWS (Update). The following news was posted on the 3Y0J Web page (<https://www.3y0j.no/latest-news>) as well as EHAM.net on September 14th [edited]:

3Y0J team is full speed ahead with the planning, below is just some info about what we're doing right now.?

1. We prepare for the first vessel deposit which is due next month.
2. The logistic team which Gjermund, LB5GI is leading are working on several important topics
 - a) Preparing a safe way to land the operators and the equipment on Bouvet. A flexible system that allows for various conditions will be engineered, constructed and soon tested at a beach in Norway with enough swell. We are working on several different systems to adapt to the conditions. One system consist of 2 zodiaks, buoys, anchor, capstan and rope to safely land the dinghy with and without personal/equipment.

Gjermund and Rune, LA7THA, are working with some experienced Norwegian professionals within the maritime industry in Norway to test this system live.

- b) Prepare a winch system for lifting the equipment up from the beach to the cliff at Cape Fie. Again we prepare for a flexible system that can adapt to various shapes and height of the cliff, we will use both electrical and non-electrical systems, and also manual systems. The most bulky item is the diesel generators (75 kg). System to be engineered, constructed and tested in Norway soon. Effort is being lead by Rune.
 - c) A system to assist us in bringing the equipment from the cliff up to the camp roughly 200 ft up at 70ft ASL being planned. This will help us when bringing 4.5 metric tons of equipment, fuel and water up to the camp.
3. We are currently reviewing the antenna layout once again. InnovAntenna being our main sponsor. We're working on a staged approach to allow setting up the camp also during very short weather windows with a setup that will be expanded with more stations and antennas until we reach the full setup. Adrian, K08SCA, is currently preparing for testing the tribander yagi.
4. Erwann, LB1QI, is leading the ancillaries systems and is working on the tent selection. Heated or not heated tents?
5. We are working on the station setup, but so far we have not selected the exact setup - we have several options on the table when it comes to radio and amplifiers.
6. Safety has a high attention in the project, and we will do what we can to avoid accidents and injuries. Bill K07SS is taking the lead on Safety. Bill is dedicated to oversee all planning and operations wrt (ed. With Respect/Regard To) safety. We will run risk workshops, discuss safety, safety procedures, mitigate risk, construct emergency shelter, prepare evacuation plan of personal, evacuation of injured operator from camp to vessel etc...

In a while we will start with zoom meetings - there you can follow our journey to Bouvet. You can get the latest news, discuss with us topics, get feedback, interact with operators, Q&A and more.

Check out our website for this feature - you can buy access for unlimited access to the meetings - and at the same time help us

in fundraising. <https://www.3y0j.no/funding>

3Y0J BOUVET ISLAND DXPEDITION NEWS (Update). The ARRL Web page reports that the ARRL has awarded a Colvin Grant of 5,000 USDs to Amateur Radio DXpeditions (ARD), the Norwegian non-profit organization that is sponsoring the 3Y0J DXpedition to Bouvet Island next fall. Read the complete press release at:

<http://www.arrl.org/news/view/arrl-awards-colvin-grant-to-latest-bouvet-island-dxpedition>

5H, TANZANIA (Reminder). Maurizio, IK2GZU, will once again returned to "Mission Ilembula" to do some volunteer work at the Ikelu hospital and orphanage between September 25th and November 20th. He plans to be active during his spare time as 5H3MB on various HF bands using CW, SSB, RTTY and FT8. Maurizio will use his FT-891 and dipoles GP for 10 MHz. QSL via IK2GZU, direct, by the Bureau and ClubLog. Also, QSL via LoTW (after his return home) and eQSL. For more details, updates and an online log, visit

his Web pages at: <http://www.buffoli-pm.it/5h/Tanzania%202011.htm>

<http://www.buffoli-pm.it/5h/qs1%20request.htm>

8Q, MALDIVES (Reminder). Nobby, G0VJG, will once again be active as 8Q7CQ between September 28th and October 13th. This will be his third trip there, but this time he will be active from the Island of Innahura (AS-013).

Activity will be on 80-10 meters (this now includes 60m) using SSB and the Digital modes. His equipment will be a FT-450D or FT857 with a JUMA

1000 watt amp into HF6V Butternut vertical for the HF bands and a link dipole. QSL via M00X0's OQRS or direct.

8Q, MALDIVES. Remo, HB9SHD, will once again be active as 8Q7RM from Kandolhu Island (AS-013) between November 1-30th. Activity will be holiday style on various HF bands (40-6m, possibly 80m) using mainly FT8, but if propagation allows, SSB and slow CW as well. Remo plans to be active every-day for several hours, however, he will go for diving and relaxing as well, so no hardcore DXpedition. QSL via HB9SHD, direct, by the Bureau, ClubLog and LoTW.

9K91, KUWAIT (Special Event). To celebrate Saudi Arabia's 91st National Day (September 23rd), members of the Kuwait Amateur Radio Society (9K2RA) are activating the special event station 9K91KSA until September 25th.

QSL via 9K2RA.

A60, KUWAIT (Special Event). To celebrate Saudi Arabia's 91st National Day (September 23rd), members of the Emirates Amateur Radio Society are activating the special event station A60ARS until September 23rd.

QSL via EA7FTR. JUST A REMINDER: Special event stations 7Z91ND, 8Z91ND and HZ91ND are also active during this event (see OPDX.1530).

A91, BAHRAIN (Special Event). To celebrate Saudi Arabia's 91st National Day (September 23rd), members of the Bahrain Amateur Radio Society are activating the special event station A91ARS until September 23rd. QSL via EC6DX.

C9, MOZAMBIQUE. Looks like YL Elvira, IV3FSG, is on the move again. She will be active as C92R from Mozambique sometime in October. Usually, her activity will be limited to her spare time on 80-10 meters using SSB, RTTY and PSK31. She will probably be there working on a project for the Informatici Senza Frontiere ONLUS. She will be looking for some financial support. QSL via IK2DUW, direct, by the Bureau or ClubLog.

CR3/CT9, MADEIRA ISLANDS. Operators Jak/DF8XC, Jan/DJ8NK, Heye/DJ9RR, Dieter/DK4QT, Guenter/DL2AWG, Thomas/DL6TK and Ronny/DM2RM will be active as CR3W from Santana, Madeira Island (AF-014, Zone 33) during the CQWW DX RTTY Contest (September 25-26th) as a Multi-Multi entry. QSL CR3W via DL5AXX, OQRS (see QRZ.com) or LoTW. Look for operators to be usually active outside of the contest as CT9/homecall on 160-10 meters using CW, SSB and the Digital modes. QSL via their home callsigns.

CT9, MADEIRA ISLAND. By the time you read this, Marc, DL1BU, should be active as CT9/DL1BU from Madeira Island (AF-014, WW Loc. IM12lq) through the end of September. Activity will be on various HF bands, running QRP using SSB and FT8. Equipment is a Yaesu FT-817 (5W only) with Antenna-Tuner LDG Z-817 into a HF-P1 (portable antenna). QSL via DL1BU by the Bureau.

D2, ANGOLA. Mikalai, UT6UY, is now active as D2UY from Cabinda, Angola, for several months. Activity is limited between 1600-2300z on 20/15/10 meters using CW only because of very strong local QRM on low bands. He using a Yaesu FTDX-10 into a vertical antenna. QSL route is TBA later.

D6, COMOROS (Reminder). By the time you read this, operators Janusz/SP9FIH and Leszek/SP6CIK will be active as D60AC and D60AD, respectively, from Moroni, Comoros (AF-007), between September 18th and October 2nd. It took

3 months to get their licenses. Activity will be on 80/40/20/17/15/12/10 meters using CW, SSB, RTTY and FT8. They will use 50 watts on 80m; 500 watts on rest of the bands. Antennas are inverted L, verticals and VDA.

QSL via their home callsigns or via ClubLog (preferred). For more details and updates, see: <http://d6.dxpedititions.org/>

DXENGINEERING YOUTUBE PRESENTATION. Tim Duffy, K3LR, from DXEngineering, interviews John, K1AR, Director of the CQ WorldWide Contests. The video is just under 38 minutes, and is about the workings of the CQ WorldWide Contests which can be viewed at: <https://www.youtube.com/watch?v=7GICdP-FrdYI>

INDEXA NEWS (Election Results for 2022 Fiscal Year). The results of the election are as follows [edited]:

Three Year Directors:

- * Lou Dietrich, N2TU, was elected to serve during the 2022, 2023, and 2024 fiscal years.
- * Bob Allphin, K4UEE, and Ralph Fedor, K0IR, were each previously elected to serve during the 2021, 2022 and 2023 fiscal years.

Two Year Directors:

- * Franz Langner, DJ9ZB, Gary Dixon, K4MQG, Otis Vicens, NP4G, and Dick Williams, W3OA, were each elected to serve during the 2022 and 2023 fiscal years.

One Year Directors:

- * Adrian Ciuperca, K08SCA, Steve Molo, KI4KWR, and Steve Sullivan, KZ2I, were each elected to serve during the 2022 fiscal year.

President:

- * Bob Schenck, N200, was elected to serve during the 2022 and 2023 fiscal years.

Vice President:

- * Jerry Rosalius, WB9Z, was elected to serve during the 2022 and 2023 fiscal years.

Secretary-Treasurer:

- * Hal Turley, W8HC, was elected to serve during the 2022 and 2023 fiscal years.

The Directors have now voted for the Fiscal Year 2022 Chairman and elected Lou Dietrich, N2TU to serve as Chairman.

Thanks for your continuing support of INDEXA and our purpose of working DX and making DX happen! INDEXA is always poised to support many of the "Most Wanted" DXpedititions.

73 and Good DX!

Dick Williams, W3OA, Secretary-Treasurer
International DX Association (INDEXA)
398 Lakeview Shores Loop
Mooresville, NC 28117 USA

JD1, MINAMI TORISHIMA. Take, JG8NQJ, will once again be active as JG8NQJ/JD1 from Marcus Island, Minami Torishima (OC-073, JCG 10007), sometime between early October to mid-December for 3 months. He is usually there to work on the island's weather station. Activity will be limited to his spare time. He will usually be mainly on 17 meters, but may try 40/30 meters and will also be on 20/15/12/10/6 meters using CW (possibly RTTY), with a Yaesu FT-450 and 50W. QSL via JA8CJY or by the Bureau via JG8NQJ.

S9, SAO TOME AND PRINCIPE (Update). The Czech DXpedition Group will be active as S90K from Sao Tome Island (AF-023). Operators mentioned are Petr/OK1BOA, Petr/OK1FCJ, Palo/OK1CRM, Pavel/OK1GK, Ruda/OK2ZA, Ludek/OK2ZC, Karel/OK2ZI and David/OK6DJ. The team will arrive on October 2nd and depart on October 16th. Approx. on air: limited/building up October 3-5th; full operation planned between October 5-14th; dismantling October 15-16th; departure on October 16th. Activity will be on 160-6 meters using CW, SSB and the Digital modes (FT8 & RTTY). Suggested frequencies (+/- QRM) are:

CW - 1832, 3535, 5353, 7032, 10105, 14025, 18079, 21025, 24903 and 28018 kHz SSB - 3790, 7185, 14185, 18150, 21280, 24935 and 28450 kHz

FT8 - 1840, 3580, 5357, 7071, 10144, 14090, 18109, 21091, 24923 and 28091 kHz RTTY - 3580, 7045, 10142, 14080, 18099, 21080, 24911 and 28080 kHz 6m - 50095/CW, 50150/SSB and 50313/FT8

Based on the local internet availability, they plan to use ClubLog's "Live Stream" wherever it will be possible. Their "Live Stream" link: <https://clublog.org/livestream/s9ok>
QSL via OK6DJ, direct, OQRS or LoTW. For more details and updates, check the following URL links: Web Page - <https://www.cdxp.cz>
Czech DXpedition FaceBook - <https://www.facebook.com/groups/1472348776313779>

J5T & J5HKT DXPEDITION TO GUINEA BISSAU NEWS (Update). Members of the Italian DX Team continue to prepare for their DXpedition to Bubaque Island (AF-020), Guinea Bissau, as J5T (CW-SSB-RTTY) and J5HKT (FT8) between October 9-22nd. The team posted the following this week: "The departure date is approaching; yesterday, Sept. 16th, we paid for the plane tickets. Today, Sept. 17th, we received the passports with the visas. Next October 6th the whole team will do the molecular swab for Covid-19. We roughly think we will land on the island on October 9th in the morning and the first station will be 'on-air' in the early after- noon of the same day. Thanks to the Sponsors for their appreciated help!"

Remember, activity will be on 160-10 meters using CW, SSB, RTTY and FT8.

They will have 6 operators and 4 stations active. QSL via I2YSB direct, OQRS or LoTW. For more info, see OPDX.1520. Their official Web site is

at: <http://www.i2ysb.com/idt>

Real-time online logs during the DXpedition on: <http://win.i2ysb.com/logonline/>

LY785, LITHUANIA (Special Event/Update). Last week we mentioned that Valerijus, LY2QT, would be active with the special event callsign LY785QT (QSL via LY2QT) from Siauliai during the month of September. Activity is to celebrate 785th anniversary of the City of Siaulai. A few more callsigns have been announced so look for: LY785A (QSL via LY5A) and LY785SUN (QSL via LoTW, eQSL and ClubLog). Stations will be active until September 30th.

Also, a special "SIAULIAI-785" award is available. Details are available on QRZ.com.

MJ5, JERSEY. Three A's Contest Group (G0AAA) member Bob, GU4YOX, will be active as MJ5A during the CQWW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (40m)/High-Power entry. This will be the first time that the MJ5A "Three A's Contest Group" callsign will be used in the CQWW DX CW Contest. QSL MJ5A via G3TXF, ClubLog or LoTW.

NCDXF NEWSLETTER. The Northern California DX Foundation (NCDXF) "2021 Fall" newsletter (10 pages) is now available online at:

<http://www.ncdxf.org/newsletters/2021-AUTUMN.pdf>

To read past issues, go to: <http://www.ncdxf.org/pages/newsletter.html>

OH, FINLAND (Hams Celebrating 100 Years). Martti, OH2BH, sent out the following press release on September 15th [edited]: Today national flags are flying high in the backyards of Finnish radio amateurs countrywide.

This year, the Finnish Amateur Radio League (SRAL) celebrates the 100th anniversary of its founding. The birthday is set at 15th September 1921 which marks the day when the constitutive meeting was held.

On the occasion, the President of the Republic of Finland Sauli Niinistö has congratulated all Finnish radio amateurs for their role e.g. in developing communications and radio technology.
<https://www.sral.fi/en/2021/09/15/message-from-the-president-of-the-republic-of-finland/>

From today till 23rd December (for 100 days) all OH and OH0 stations may use the "OF" prefix to honor the centennial of their society.

This is good news for those who want to greet their friends or work toward their "SRA-100 Northern Lights" award presented here:

<https://www.qrz.com/db/OH2A>

Scandinavian Activity Contest this weekend (September 18-19th) is a good window to catch them all at once: <https://www.sactest.net/blog/rules/>

Finns are also known to leave their igloos for the Southern lands:

Look for Olli, OH0XX, as OF60BBM/EA8 from Canary Islands, Martti, OH2BH, remotely as CU2KG from Azores and Erik, OH2LAK, as OH2LAK/HH from Haiti.

OJ0, MARKET REEF. Rudi, DK7PE, was active this past weekend as OJ0/DK7PE from Market Reef (EU-053) for a short operation. His length of stay is not known, and he may be QRT as you read this. Activity will be on various HF bands, running 5 watts QRP into a Jumper Dipole used as a vertical antenna. QSL via his home callsign, direct or by the Bureau. For updates, watch:
<https://www.roody.de/>

THANKS, OHIO/PENN DX BULLETION!

KCDXC FACEBOOK EXPANDED, NEW LEADERSHIP: K0XM!

BY AB0X

K0XM has become the new administrator for the KCDXC Facebook page. AA0MZ and I worked a few years on the administration of the KCDXC Facebook page, we but could get little participation. So, it is time to have new leadership on this page. Chuck, knows what he is doing with Facebook and the club should definitely gain new involvement and participation from members with his new approach. It is set up so everyone can post and share about the KCDXC. Go to the page and join! Take a look:

<https://www.facebook.com/KCDXC-Kansas-City-DX-Club-537086523012352> .

NEW DX RAY ON 10 METERS

BY WD0SRI

The newsletter staff has learned that a certain KCDXC member in the southern area of the metro has built a new 10 Meter beam to be phased with another similar beam and become a DX Ray focused on South America. Who could it be???

TOWER & ANTENNA PICS

We are in need of pictures of towers and antennas from members for the upcoming newsletter. There are many members who have not sent in pics of their antennas! Send your pictures to ab0x@kc.rr.com . It doesn't have to 200' tall, just be beautiful in the eyes of the beholder!

DX HISTORY

BY AB0X

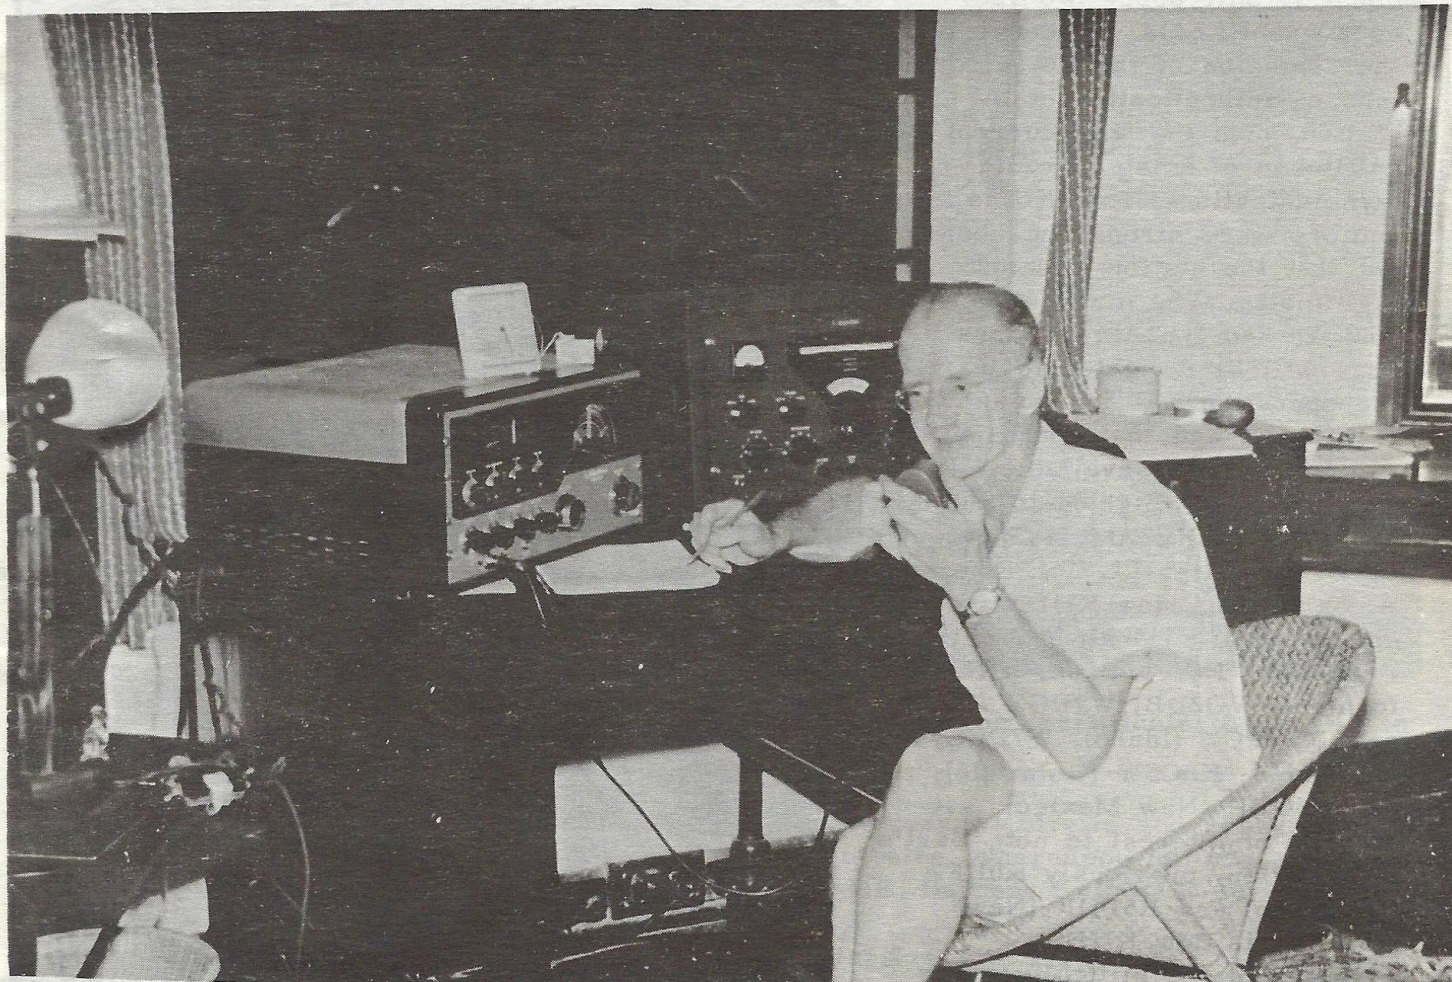

A few days ago I was looking thru some old files and I came across an article and pics that Lee, W0AR, had given me many years ago. These articles brought to mind a time in DX History when life was very different than today. Rare DX locations were activated by courageous people at the expense of only one or two people.

Below are pics of a young Lee Bergren, then W0AIW, on his DXpedition to then very rare Seychelles Islands. I think you will enjoy reading the article:

OUR FRONT COVER

We are delighted to present on our front cover this week a picture of one of the top DX expedition operations of the year, VQ9AIW, Lee Bergren, W0AIW (also OH1ST/0, YN0YN, FP8AM, and, not least, XE4A), co-winner of the Niagara Frontier DX Association's "DX Signal of the Month" award for August. The other winner of this award, for the same event, is no less a personage in the DX world, Robby Robson, VQ9ERR (VQ4ERR), shown below at his own (separate and simultaneously operated) station in that hotel room in the Seychelles.

"Briefly, the affair went off completely on schedule," writes Lee (see last minute plans, "DX" #82/5). "We had over 3,000 contacts in 9 days of operating during the latter part of August. I was completely amazed at the signals and the reports there in the middle of the Indian Ocean. East Africa and the islands of the Indian Ocean were completely fabulous to me, and I am already looking forward to my next trip there."

Obvious in the pictures, Lee's station was a KWM-1 on CW, and Robby's station an HT32 and 75A receiver on phone.

Cards for the VQ9ERR part of the operation should have gone via W4IYC (Myron Steffy, 1236 Westminister Ave., Richmond 27, Va.) and VQ9AIW via Bill Tagan, W0DVN, as related in "DX" #82. In a recent letter, the latter, Bill, writes: "We received Lee's (VQ9AIW) logs on Friday, the 14th of August (Ed. note: this is believed to be an error, for the operation occurred during the second half of August; it's probably meant to be September, although neither that month nor October has a Friday the 14th). By Saturday night we had all the cards made out, and the next day all that had included a stamped and addressed envelope were in the mail. Then it took just 5 days to get out the rest, either by bureau (very few), or direct. If you still haven't received your VQ9AIW QSL, please wait 4 weeks and then write Lee directly (Lee Bergren, 808 E. 108th St., Kansas City, 14, Mo.)."

E. ROBSON

VQ4ERR

Our little DXer is still out on his island-hopping expedition and it looks like we may have to go and fetch him soon, as either we or DXCC may run

out of islands soon. He's very appreciative to all those who submitted a name for him but he hasn't been able to decide which one he likes the best. (Inside information has it he will have a title).

Thanks to
??????????

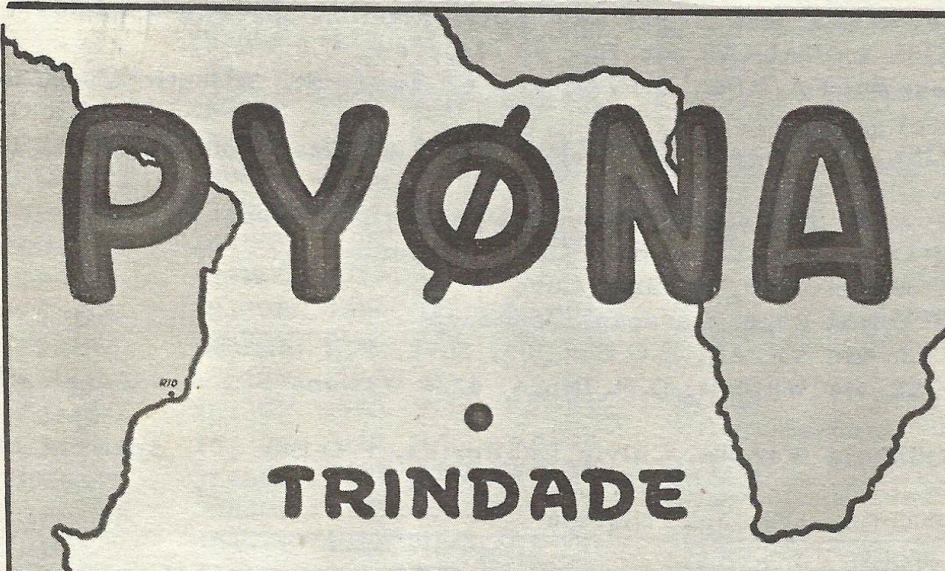

The upper and lower QSLs are products of the well-operated DX-expedition by Lee, W0AIW, and Robby, VQ4ERR, to the Seychelles

The 'AIW

QSL was sent in by W6TOT, who was the only one to send one in to us so far

The ERR card is courtesy of W4IYC, who says that TI2HP will get a duplicate.

Well, fellows, here is the answer to many of your questions concerning the QSLs from Flavio, PY0NA. It was sent in by W1ZZK, who also sent in a number of other QSLs for the Drooling Corner. In case you haven't received yours, the op was PY1CK, and his address is P O Box 5292, Rio de Janeiro, Brazil. A couple IRCs and a self-addressed envelope should do wonders towards filling that blank in your DXCC confirmed.

Sponsored by The Radio Society of East Africa, Nairobi, Kenya

E. Robson, "Robby"

VQ4ERR

AMS

The story of Lee's and Robby's DXpedition was featured in the [DX, the Weekly Radio News Magazine](#), edited by Don Chesser, W4KVB.

Note the name of the section of the magazine featuring recent top QSLs: "The Drooling Corner."

Also, can you just imagine taking that HT-32B and Collins receiver all the way to the Indian Ocean? Lee had it right with the KWM-1!

Wonder what W0AR and Robby would think of the ease of LOTW and all band rigs that are simple carry-on items on planes today? Hope readers enjoyed this trip back to the late 1950's!- AB0X
